

Invacare® | *Medley Ergo Family*

NEW

Complies to the new safety standard, IEC 60601-2-52

“Medley Ergo: for a myriad of client needs”!

The **Medley Ergo** range of beds from Invacare offers the perfect balance of economy, functionality and quality.

The optimised length of the various mattress platform sections provides increased comfort for clients when sitting up in bed. The optimal length also reduces shear and friction when the bed sections are being adjusted and prevents clients sliding downwards.

The *Invacare Medley Ergo Low* offers the same benefits as **Medley Ergo**, but boasts extra-low height levels, thus maximising safety for individuals liable to fall out of bed. Both the **Medley Ergo** and **Medley Ergo Low** can be transformed into the *Invacare Medley Ergo Select*. **Medley Ergo Select** is a particularly stylish model in natural beech, creating a homely feel suited to any environment. All **Medley Ergo** beds are easy to transport and simple to assemble.

Yes, you can.®

Reduced shear and friction

The different sections of the mattress platform boast optimal dimensions designed in accordance with anthropometric statistics and pressure mapping recommendations:

- Increased comfort when sitting
- Reduced shear and friction
- Minimised risk of slipping downwards during profiling
- Optimised for shorter, unstable patients

More work done in less time

The *Invacare Medley Ergo Family* has been specially designed for timely transportation in the transient working environments of nursing homes and medical centres. As an option, it comes equipped with a special transport fitting so that the bed can easily be collapsed, moved and re-installed in a variety of locations. In addition, any assembling can be done without the use of tools or technicians, saving you time, money and effort.

Height is no longer an issue

The flexible design of the *Medley Ergo Family* allows the bed to be mounted at an extra low height, or a higher position if preferred, creating a range of working levels for the carer and transfer heights for the patient. This is facilitated

by the unique design of the bed end, which enables the mattress support to be mounted in both upper and lower positions.

All side rails comply with the new standard, IEC 60601-2-52.

Features and Options

Easy to attach side rails

Full-length side rail in wood. Easy to mount without the use of tools. Available in extended version as well.

Easy to attach side rail

Full-length side rail in steel. Easy to mount without the use of tools.

Scala 2 range

A range of collapsible steel side rails in various heights.

Verso II side rail

A modern, collapsible steel side rail.

Options and Features

Medley Ergo Low

The ability to position the bed at a lower level means increased security for users and real peace of mind when going to sleep. When necessary, caregivers can raise the bed to a more suitable, above-ground height.

The **Medley Ergo Low** makes it easier for individuals to get in and out of bed, equating to greater independence for users.

The **Medley Ergo Low** offers a range of adjustable heights, from 21 - 61 cm and 28 - 68 cm.

Homely design

The **Medley Ergo Select** offers a more attractive, homely design for **Medley Ergo** and **Medley Ergo Low**. Also available as a retro-fit, this aesthetic bed end cover fits with precision onto the bed actuators and can be removed at any time.

The **Medley Ergo Select** comes in an attractive, homely design. The leg supports are equipped with Rastofix to enable individual positioning of each support. **Medley Ergo Select** can easily be dismantled and stored, using a transport fitting for moving and storage.

Mattress support

Choose from steel or wooden slats.

Select design for Medley Ergo

The homely design of **Medley Ergo Select** can also be retro-fitted.

Height Extender

Height of full-length side rails can be increased by 150 mm.

Double height positions for bed ends

Adjustable height ranges for **Medley Ergo** of 33 - 73 cm or 40 - 80 cm.

Medley Ergo Low 22 - 62 cm or 29 - 69 cm.

Optimised dimensions of mattress platform

according to expert recommendations for anthropometrical measurements and pressure mapping requirements to reduce shear and friction and increase client comfort.

Shipping and Storage

Medley Ergo beds are very easy to store and transport when placed on the dedicated transporter.

Features and Options

Lifting Pole
Light and easily adjustable.

Mattress support extension
Extension kit for increasing mattress support length by 15 cm.

Shipping fitting
For easy storage and transport.

Hand controls
With or without lockable functions.
